5/16	<p><b>Superfast Broadband:</b> SB gave an update on information about Farthingstone’s access to superfast broadband (SFB), following further questions he had asked of the NCC SFB team, the key points are:</p> <ul style="list-style-type: none"> <li>• Farthingstone will not benefit from Stage 2 and is in the remaining 4% of communities for whom a solution is not yet available (Stage 3)</li> <li>• SFB will come to the cabinet in Everdon but no further – the distance to Farthingstone from that cabinet means that there will be no benefit to the village at all.</li> <li>• BT are responsible for planning SFB delivery to within budget to the maximum number of premises possible. The decision about which premises are not included in Stage 2 is theirs and they are not accountable to the public for their decision.</li> <li>• We believe that the poor quality and poor maintenance of the ducting between Farthingstone and Everdon, as mentioned by a number of BT engineers, mean that it is not cost effective for BT to lay this length of fibre optic cable (although NCC cannot confirm this and state that BT will have taken many other complex factors into account in their planning –</li> </ul>
